

ASSEMBLY AUTOMATION

INSPIRE AUTOMATION established to Design, manufacture and supply of assembly automation needs of the different Factories. The products including **Assembly lines, Leak testing Machinery, Pressing Machinery, Testing Machinery, Various conveyors, Pallets, Turn tables** etc.. **INSPIRE** Customers including **Mahindra, DANA, SEW EURODRIVES, AVTEC, TIE, FFG, EICHER, TVS Group** etc...

4th Axis CNC Rotary Table

4th & 5th Axis CNC Rotary Table

Roller Cam

HARDENED - SPECIAL ALLOY

DD MOTOR DRIVE

Auto Pallet Changer for VMC & HMC

NON-CNC-Hydraulic Index Table

Optional accessories for Rotary Tables

EASY OFFSET - automatic Wear Offset System for CNC Machinery, **Promax-I** - Industry 4.0 Industry production Monitor system, **Contract 4.0**- Health Check & Preventive Maintenance system

Kiseki Machinery

Plot No. 1992, J-Block, 3rd Street, Anna Nagar, Chennai - 600 040. Tamilnadu, INDIA.
HP : +91 88074 26744 | 93449 71707, E-mail mgr@kisekimachinery.com, Web : www.kisekimachinery.com

Kiseki Product Line up

Kiseki Machinery
Machine Tools Partner

Product Line up
Turning | Machining Centres | Grinding Machinery
Broaching Machinery | Machinery Automation
Assembly Automation | Industry 4.0 (IoT)
Machine tools Accessories | Turn Key Projects | Services

VMP SERIES

FFG – FEELER VERTICAL MACHINING CENTER PROVIDES STATE OF ART EFFICIENCY FOR INCREASED PROFITABILITY

The VMP Series is well-engineered high precision unit, ideal for various industrial requirements. It promises dramatic productivity gains with many integrated features. Its rugged structure, manufacture high quality cast iron, assures optimum rigidity and stability for years of dependable operation. The machine structure design is subject to ANSYS and NASTRAN Finite Element Analysis to achieve the highest standards of machine accuracy and reliability.

KASTURI MACHINE BUILDERS (SPM)

Kasturi Machine Builders – Special Purpose Machine maker established in 1987 at Coimbatore – Tamilnadu, India. **KMB Mkae different kind of SPM for Industries including Metal cutting, Metal forming, Rubber Industries, Textile Industries, Pump Industries,**

Foundry, testing equipment, Diamond Industries etc..., With innovative input KBM apply all latest technologies to meet customer's demand including automation. KBM build SPM with Conventional production, NC and CNC machine Tools.

KISEKI MACHINERY promote the KMB products in India and support in pre-sales and after Sales services in the country

EXCEEDING YOUR EXPECTATIONS

Palmary started in 1998 in Taiwan, become a leading source of grinding solution with automation. With the strong R&D base Palmary introduce newer products to meet rapid changes in the market demands. Palmary committed built rigid, precise durable grinding machineries, resulted in all the user area like, Automotive, Motor cycle, Aerospace, Hydraulic parts, Medical parts, General Engineering, Mold parts and Green energy etc..., Palmary is well equipped with Pre-sales engineering, Turnkey solution, automation, and after sale support. KISEKI MACHINERY support Indian customers in presales and after sales.

Type of Grinder offered from Palmary – Taiwan

1. Hydraulic Operated Grinding machine, 2. NC Grinder, 3. CNC Grinder, 4. Centreless Grinder, 5. Cylindrical Grinder, 6. Internal Grinder, 7. Vertical Grinder, 8. Surface Grinder, 9. Special Purpose grinder, 10. Grinder with Automation, 11. CAM Grinder

PALMARY

Swanand Pune based company manufacture **high precision Cylindrical and angular grinding machines and One stop solution for all grinding needs, Specialized in SPM, Double column (Technical understanding with Asquith Butler)** and upgrading bigger & High end machineries.

Bore & Face Grinders :
Bore size 6 mm to 450 mm
CBN & ALOX Wheels.
Cam Grinders :
Cam Journal
Cam Lobe
Others :
Grinders for Bearing Industry.
Double Disk Grinders.
Centerless Grinders
Crank shaft grinders :
Journal Grinders,
Pin Grinders,

Broach Grinders :
CBN Gullet Grinders
CBN Spline grinders.
CBN Profile grinders.
CNC Cylindrical & AWH
CBN / ALOX wheels
Wheel Dia from 500 to 1063
Wheel width: 50 to 300 mm
Swing: 50 – 750 mm.

Range of crank shaft grinders :
Single cylinder to 16 cylinder

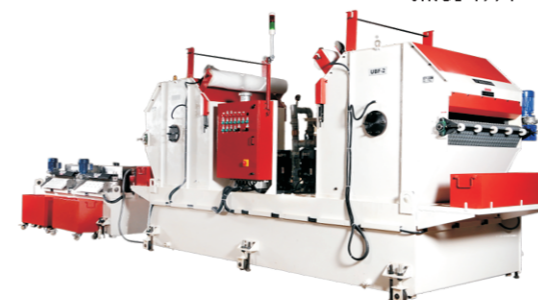

KOREA BROACH MANUFACTURE

KOREA BROACH MANUFACTURER is the Creative Global Broach Machine maker in South Korea. KBM provides end to end broaching hi-tech solutions including Machine, Broach Tool, Fixtures, Process, and automation. KBM able to support customers with advanced technological update on the machine by their continuous R&D development more than 4 decades of experience by providing complete solution with automation.

a. Tool Moving Type Broaching Machine, b. Table Moving Type Broaching Machine, c. Surface Broaching Machine, d. Hydraulic type Broaching Machine, e. Servo type Broaching Machine, f. Other Special Broaching Machines, g. Automation for the Broaching Machines.

LEXTECHNOAID- COOLANT FILTERATION SYSTEM

LEX TECHNOAID has been serving the Machine Tool and Engineering Industry since the year 1994. LEX TECHNOAID believe in providing a complete solution in Coolant Filtration and Temperature Management after having an in depth understanding of the Machine and other requirements such as component accuracy, machine thermal stability and so on. In the extensive presence of over two decades, LEX TECHNOAID have had the privilege to support various Machine Tool Manufacturers, Automobile, Aerospace and other industries in India and abroad.

PRODUCT LINE-Coolant & Oil Filtration Systems, Cartridge & Bag Filters , Compact ' U ' Band or Paper Band Filters , Rare Earth & Ferrite Magnetic Drum Separators , Magnetic Candles SS Fluidics for ECM or Washing Machine, Die Coat Spray, SS Filters , Tanks , Vessels & Structures, Chip Conveyors, Coolant , Oil , Water & Sub-Zero Chillers, Panel ACs for CNC , PLC & Electronic Panels, Hydro-Pneumatic Panels Lex technoaid are also channel partners for : Delbag(formerly M/S GEA) for their Air Filters, Mist & Fume Extractors
